Hello,

I am applying for the Python developer position that is available at your company.

I am glad to apply for the Python Developer position at your company. My training and experience in the field of programming and web development along with my ability to Django make me the perfect candidate for the job. I know that I would be a valuable addition to the team at your company.

I have a bachelor's degree from National Aviation University in "Systems of technical protection of information" and have a year of experience in web development, My knowledge of developing and deploying web applications using Python, Django, SQL, HTML, CSS, Javascript, Heroku and Docker matches well with your requirements. My  English level is Upper-Intermediate.

You will find more information about me in my CV attached in this letter. Feel free to contact me any time if you require anything.

Thank you for your time and consideration. I look forward to hearing from you.

Best regards,

Marko Khodan
