Ready to work remotely

SUMMARY

Software Developer looking for an opportunity to improve my skills in Python Development. I have been studying and practicing Python for 1 year, and have completed a couple projects. Got experience in working both with Python Core & Framework Django. Well familiar with OOP fundamentals and SOLID concepts, have skills in working with SQL, testing (Unittest, Pytest), and Git. Have skills in working with Machine Learning and Web Scraping projects. I've been studying and living in Canada for 3 years, it helps me a lot to improve my English skills to Upper-Intermediate level, and I am still working on it, to make it perfect. Both problem-solving and time managing, I can combine to do my tasks, before the deadline comes.

SKILLS

- OOP, Design patterns
- TDD, SOLID, DRY principles
- Algorithms and data structures
- Machine Learning, Web Scraping, Data Analysis, Multiprocessing
- Python 3.10+
- Django ORM, Django Rest Framework
- PostgreSQL, SQLite
- HTML, CSS, JavaScript
- Docker, Heroku
- Git/GitHub, Debugger
- English: Upper-Intermediate

EXPERIENCE
Python Developer,
Training projects, Oct 2021 - Present
Technologies: Python, Django, HTML/CSS, JavaScript, PostgreSQL, Heroku, Docker
